

CALL FOR PRESENTATIONS

Symposium on Space Innovations

Georgia Tech Global Learning Center

Atlanta, Georgia

October 18 & 19, 2017

info@spaceinnovations.org

The Georgia Tech Center for Space Technology & Research and the Georgia Center of Innovation – Aerospace are hosting a two-day event at the Georgia Institute of Technology in Atlanta, Georgia highlighting recent innovations in space science and technologies.

The event opens with a poster session, welcome reception and open-telescope night at the Georgia Tech Observatory on October 18. Activities on October 19 will feature a combination of invited & contributed technical presentations, panel discussions, and a complimentary luncheon with prominent keynote speaker in the space industry.

The organizing committee seeks original and innovative space-related technical talks & presentations, as well as panelist nominations pertaining to the following:

Technical Tracks

1. Small Satellites
2. Space Science & Deep Space Missions
3. Space Launch & Spaceports
4. Human Space Exploration & Development
5. Emerging Technologies & Applications
6. Student Activities & Programs

Panels

1. Space Policy & Law
2. Space Commercialization & Finance
3. Space Media & Entertainment

Submit nominations or abstracts of no more than 250 words by August 1st, 2017 to

<http://www.spaceinnovations.org>
