Discover the potential of the expanding BioEconomy!

Business opportunities abound in the manufacture and sale of biobased products. Also learn about Federal programs that assist you in meeting your business goals.

This **FREE** training seminar is ideal for small businesses, entrepreneurs, agriculturally based organizations, U.S. manufacturing companies, and Federal agencies that support these endeavors.

Experts will present information on:

- ▶ Biobased product opportunities and growth industries
- ▶ An introduction to the USDA BioPreferred Program
- ▶ How the Federal Procurement Preference program stimulates demand for purchasing
- ▶ Federal resources available from the Small Business Administration, Procurement Technical Assistance Centers, and the Manufacturing Extension Partnership Program
