Creating the Next:

## Defense Innovation Conference

January 14, 2019

- ▶ **Khai Edouard** is co-founder and partner at The Simple VUE. His company is a full service technology and data analytics consulting firm, with expertise in delivering business intelligence, data analytics, IT program management, and web development services. A graduate of Morehouse College, Khai has worked with PulteGroup, RentPath, AT&T, and UBS Wealth Management. For the Georgia Dept. of Economic Development, his company created the Georgia Defense Exchange (GDx) which led to the creation of The GTPAC Community.
- ▶ **Tim Greeff** is the founder and CEO of the National Security Technology Accelerator (NSTXL) which prospects and develops innovative technology from the across the broad commercial and non-traditional defense marketplace, ensuring the development of better, cheaper, and faster defense capabilities that enhance mission and support the U.S. Department of Defense, from individual Warfighter technology to large-scale defense systems. Tim holds degrees from Duke University and the University of Texas, Austin.
- ▶ **Adele Navarrete** is senior corporate counsel at LMI, a major not-for-profit contractor focusing on complex logistics management problems and partnering with the government to evolve its future-oriented critical missions. She previously served as an attorney with Dickstein Shapiro LLP; Morgan, Lewis & Bockius LLP; and the U.S. District Court for the Western District of Pennsylvania. Adele is a graduate of University of Michigan Law School and Columbia University in New York.
- ▶ **Lisa R. Sanders** is the director of science and technology for the U.S. Special Operations Command (USSOCOM). Special Ops forces defend the United States and its interests, and synchronize planning of global operations against terrorist networks. A defense intelligence senior leader, Lisa is responsible for all research and development funded activities for Special Operations Forces, Acquisition, Technology & Logistics, at MacDill Air Force Base. She hold degrees from the GMI Engineering & Management Institute and St. Leo University, and attended Senior Service College at the Defense Acquisition University.
- ▶ **Raven Smith** is a senior regulatory compliance analyst with Lockheed Martin, a global aerospace, defense, security and advanced technologies company. Experienced in accounting, internal audit and fixed asset management, Raven carries out supplier diversity responsibilities, including the review and approval of small business supplier subcontracting plans. She's previously held financial positions with Vulcan Materials Company, and holds degrees from Tuskegee University and Faulkner University.
- ▶ **John Roman** is senior vice president for administration at HII Technical Solutions, a division of Huntington Ingalls Industries. HII Technical Solutions is a professional services business providing mission-critical and practical solutions to a wide variety of government and commercial customers worldwide. John's responsibilities include procurement, security, quality assurance, and facilities. Over the past 25 years, he's played contract management roles with LMI, Cadmus, SAIC, and DynCorp. He holds a degree in financial management from The Catholic University of America.
